TO ALL SEMINARY PRINCIPALS:

If there does not now exist a history of your seminary I am asking you to proceed at once to collect the necessary data, indicated below, and to make such a record, a copy of which is to be submitted to this office. Many of the seminaries already have such a history. If so, please send us a copy.

1. When was your seminary program initiated?
2. Name the principals and teachers who have been there since the seminary began, in the order of their years of service.
3. Who took the initiative in getting your seminary established? How was the seminary building paid for? Who was the first president of your local seminary board?
4. When was the present building constructed? Has the present building been used since the inception of the seminary program there? If not, where has the work been conducted? If you have any information about who dedicated it, include that also.
5. Has your seminary ever been endowed by anyone of a philanthropic disposition? If so, by whom and in what manner?
6. Have there been any unusual contributions made toward the support of your seminary?
7. Give the approximate total of students who have attended your seminary since its beginning.
8. List any graduates who have achieved distinction in Church or civic leadership capacities.
9. List any special projects or achievements attained by the seminary aside from the regular classroom program.

The above probably forms the minimum data which should be included in your seminary history. You may find in your own seminary factual material which would be interesting and have permanent value other than that which has been indicated above. If so, include it also.

We are anxious to receive this history without delay. If all of the above information is not readily available, do not wait to send us the information you can assemble right now. You can add the other when it becomes available.

The history of your seminary, as complete as you can make it, should be mailed to us not later than March 1, 1953. Be certain you indicate the name of the seminary about which you are reporting the history, the date it is prepared, and sign your name to it as the present principal.

Sincerely yours,

Frank L. West
